Reading Notes

Titles in italic are the assigned texts. 'Ch.' indicates specific chapters only. All readings available via university library or open access unless noted.

@arcktip sources (Hoffman) are primary practitioner readings — first-hand accounts from building products at Social Bicycles / JUMP, Superpedestrian, Google, and Meta. These anchor the course in lived professional experience.

Graduate students are expected to read all listed texts. Undergraduate students read the 1–3 anchor texts and come prepared to discuss them in depth.
